Supplemental Box

(To be used when the space in any of the preceding boxes is not sufficient)

Continuation of: BOX III

The argument presented by the applicant in his letter of 20 August 2001 with respect to the assessment of the present claims as a professional activity has been taken into consideration. However, even in consideration of these reasons, the examiner is of the opinion that the subject matter of Claims 1 to 11 concerns a process for a professional activity.

Pursuant to the requirements of PCT Rule 67.1(iii), an international preliminary examination is not to be carried out on substantive matter of this type.

Moreover, it should be pointed out that the subject matter of Claim 1 has been formulated in such a general manner that at least one of the plurality of alternatives (and/or) represents a transfer process with a conventional transfer order form in which, for example, a customer number, invoice number or the name of the user is indicated as an application purpose (details of the application purpose correspond to the transmission of a code). Therefore, the subject matter of Claim 1 is not novel.
